

Female Math Course

TASC Mathematics Prep Class

During the **TASC Mathematics Prep Class**, you'll:

1. take a complete timed TASC Mathematics Practice Test*
 - Part 1 (calculator permitted, 38 questions, 50 minutes)
 - Part 2 (calculator *not* permitted; 23 questions, 55 minutes)
2. check your Practice Test answers against the Answer Key and ask questions about your wrong answers.
3. Listen to Math Test Anxiety Reduction CD

Female Math Course

**the TASC Mathematics subject test has five main topics: numbers & quantity, 13%; algebra, 26%; functions, 26%; geometry, 23%; probability & statistics, 12%. The majority of problems are word problems and many tables and charts are featured.*
